

RELIGION'S ROLE IN RESPONSE TO CLIMATE- INDUCED DISPLACEMENT AND MIGRATION IN LATIN AMERICA

A workshop organized by American University's Center for Latin American and Latino Studies
(CLALS) with generous support from the Henry Luce Foundation
June 1, 2018

WORKSHOP PARTICIPANTS

Susana Adamo is a research scientist at the Center for International Earth Science Information Network (The Earth Institute, Columbia University) and an adjunct assistant professor in the Undergraduate Program in Sustainable Development in the same university. She is also a member of the Scientific Advisory Committee of the Inter-American Institute for Global Change Research and coeditor of the Population and Environment Research Network (PERN). She received her PhD in demography and sociology from the University of Texas at Austin. Dr. Adamo's research encompasses fields: environmental migration and displacement, social vulnerability and environmental change, dynamics of internal migration in developing countries, rural/urban demography, and all aspects of data integration related to demography and environment links. Among other projects, she worked on the development of gridded population databases including topics such as distribution and net migration; vulnerability and climate variability in Latin America; migration, cities and climate change; vulnerability to winter storms in the US Northwest; migration and meningitis in Sahel countries; and land use and population change in Latin American and the Caribbean.

Robert Albrow is Research Associate Professor at American University.

environment-induced migration, migration laws and policies, statelessness, forced migration and human rights of migrants. And as a professor, researcher, consultant and lawyer, Dr. Claro has been working on questions relating to international migration in Brazil for over a decade. She is the Adjunct Coordinator for the Program and Research Nucleus on Environmentally Displaced Persons at the Paraíba State University (NEPDA/UEPB). She is also a member of Red Latinoamericana sobre el Derecho de las Personas Refugiadas, the Red Internacional de Migración y Desarrollo (RIMD), and the American Network for Environmental Migration (RESAMAE-mail: cclaro@gmail.com)

Ken Conca is Professor of International Relations in the School of International Service at American University. He received his PhD from the Energy and Resources Group at the University of California, Berkeley. His research and teaching are concerned with global environmental governance, environmental peacebuilding in war-torn societies, environmental politics and policy in the UN system, and water governance. Dr. Conca is author or editor of several books, including *An Unfinished Foundation: The United Nations and Global Environmental Governance*

migration governance, in particular populations displaced by environmental changes, including natural disasters, and the policies of adaptation to climate change. He has conducted field studies in New Orleans after hurricane Katrina, Tuvalu, China, Kyrgyzstan, the Maldives, Mauritius and Japan, after the Fukushima disaster. He has authored many peer-reviewed articles and authored or edited multiple books, including coauthoring *The Atlas of Environmental Migration* (Routledge, 2016) and editing the *Handbook of Environmental Migration* (Routledge, 2018). Among other activities, Dr. Gemenne was a 2015 Fulbright scholar at Princeton University and is director of the Sustainable Development series at Presses de Sciences Po.

Eric Hershberg is Director of the Center for Latin American & Latino Studies and Professor of Government at American University. He received his PhD in Political Science from the University of Wisconsin

the United States and abroad. He currently serves on the Council of Advisors of South Asian Americans Leading Together (SAALT). Email: jrathod@wcl.american.edu

Daniela Stevens is a Ph.D. Candidate in Political Science at American University's School of Public Affairs. She is a recipient of 2014 Tinker Field Research Grant, which supported her dissertation research titled "Uniting Behind Presidential Bills Even in a Divided Congress: Evidence from Mexico's National and Subnational Legislatures." Her research focuses on national and subnational policies that put a price on carbon emissions. She has also written multiple blog posts for American University's Center for Latin American & Latino Studies (the AULA Blog), including "Mexico: Environmental Initiatives Likely to Stir Things Up"

Toby Alice Volkman is Director of Policy Initiatives and Secretary at the Henry Luce Foundation where she is primarily responsible for the Henry R. Luce Initiative on Religion and International Affairs. This initiative was launched in 2005 to deepen American understanding of the role of religion in the international arena, and to connect scholarly, media, and policy communities working on these issues. Dr.
